Report of Principal and School Improvement Council

Dear Parents and Supporters of Batesburg-Leesville Primary,

Batesburg-Leesville Primary School is very proud of its mission to meet the needs of all students and to prepare them for the future. We believe the goals and objectives established by the School Improvement Council and the faculty and staff were met for the school year 2007-2008. The most exciting goal that was achieved was meeting the No Child Left Behind's Adequately Yearly Progress! Focusing on our school's motto this year, "Work Hard, Work Smart, Work Together," our faculty, students, and parents have followed the school's School Renewal Plan to move our school forward and maintain an excellence in which we can be proud.

BLPS has continued to implement the State Improvement Grant which was awarded to us last year. As part of the objectives of the grant, our school discipline policy has been revamped and we are very proud to report that discipline referrals have reduced from 923 in 2005-2006 to 551 this year. Our school was also named as one of the first schools in the state to be a HealthierUS School Challenge Silver Team Nutrition School by the U.S. Department of Agriculture. BLPS met the challenge to make changes to our school's nutrition environment, improve the quality of the foods served, and provide students with more nutritious, healthy choices. The Silver Award has been received by only 32 schools in the nation!

A 2-hour, uninterrupted reading block was scheduled for 1st and 2nd graders this year to ensure that students receive reading and writing instruction without being pulled out for other services. Also, the master schedule was designed such that additional faculty members were able to assist in providing small group instruction to more effectively differentiate reading instruction. This has proven to be very successful in helping students reach their individual potentials.

We are also very excited about the implementation of two excellent programs, Thinking Maps and Write From the Beginning, which help students brainstorm about subjects and then write stories or factual information using a writing formula. The faculty and staff have all received training about these two programs and students have improved their writing skills already!

As we look ahead, we cannot be complacent and become satisfied with mediocrity. We want our students to be able to compete with any other student across the country. A good work ethic, a strong academic base, and support from parents/guardians will certainly help in achieving our goals for the future.
